

Low Poly Chaos is a top down shooter based on "Hotline Miami"

Controls:

W, A, S, D - movement

mouse - look around

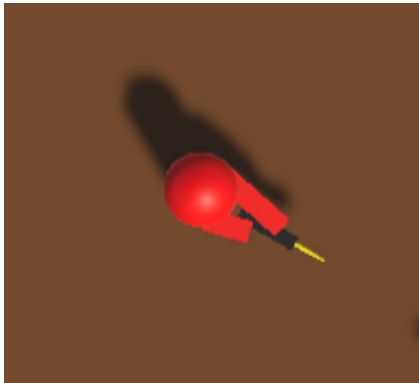

LMB - attack, shoot

RMB - pick up/throw away weapon

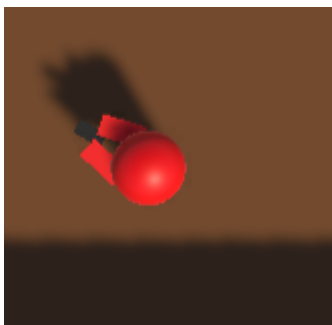

Basics:

-Enemies:

\* with assault rifle (high firerate, shooting on sight, on death drop fully loaded assault rifle)

\* with pistol (lower firerate, have to be closer to you to start shooting(half their view range), on death drop fully loaded pistol)

-Weapons:

\* hands (you can kill enemies with your own hands but you have to be really close)

\* pistol (loaded with 10 rounds)

\* assault rifle (loaded with 30 rounds)

! Dropped weapons store their ammo count (if you run out of ammo in one weapon you have to pick up another(not empty) weapon, there is no reloading weapons)

Tips:

- conserve ammo (if you run out of ammo your chance of success is almost none)
- use the environment (if spotted hide behind walls to lure enemies with minimal risk)

To succeed you'll have to play smart because you only have one life. To advance to the next level you have to kill all enemies on each level
